### Programmable Settings

You can set language\*, date and time, view preferences and create projects with individual tolerance settings.

### On-Screen Warning System

You can react immediately to results that might be out of tolerance with immediate information on the sample.

- Within tolerance = green
- Outside tolerance = red
- On border of tolerance = amber

### User Friendly Ergonomics and Intuitive Interface

You are guaranteed to be up and running quickly and easily supported.

### Easy storage and sharing of results

Large data storage (> 20,000 readings) and USB connectivity ensure your results can be stored and easily shared.

### Single Scale Measurement

The EC 2000 Pt Co provides you an individual scale to measure Platinum Cobalt/Hazen/Apha Colour (ASTM D 1209).
